

As of January 1, 2009, we will start charging \$5.00 to complete all school, college and camp forms for our patients. The charge will be for each form requested and payment will be collected before the form is completed. We require between 3-5 business days to complete the forms. You may then either pick them up at the office of your choice or provide us with a self addressed stamped envelope for mailing. You will need to complete a HIPAA release form if you want us to mail the form anywhere other than your home address. Please be aware that if the form has specific lab requirements or immunizations you need to make sure these have been met before we can even complete the form. A delay in obtaining lab work will of course increase the time frame to complete your forms.
